

STAY SAFE AND PROTECTED IN THE FIELD

Libris 2 For Lone Workers

Numera® Libris 2® delivers immediate two-way communication, even from remote locations and harsh environments. It provides hands-free, two-way voice calls in the event of a fall, giving confidence to workers that they are never truly alone in the field. Now featuring advanced GPS and locating services in a rugged casing, durable in the event of hard falls and water submersion.

The Numera Personal Emergency Response System meets the challenges of employers monitoring lone workers, giving them reliable activity and emergency updates. No matter the type of risk the job presents, 24-hour emergency communication provides the peace of mind every lone worker needs.

Advanced Fall Detection
With 24/7 Help

Fully Mobile for Personal
Safety On the Go

Device and Event Notifications
to Keep Employers Informed

Water-Resistant to 1 Meter (3.3 ft)
for 30 Minutes.

Lone workers exist in nearly every industry, making them a wide and diverse market of customers

- Hotel, Casino, and Other Service Industry Workers
- Electrical / Telephone Wire and Tower Workers
- Real Estate Agents
- In-Home Care Takers
- Manufacturing Workers
- Park Rangers
- Private Contractors
- Environmental Inspectors
- Security Guards

More than Mobile PERS

Libris 2 is paired with the EverThere cloud platform, a web based portal for Numera Libris 2 customers, with location services, family and caregiver social features, online device settings, and customized notifications.

No Installation

Libris 2 set-up and device management is easy, the device is pre-configured, and does not require any on-site installation. Libris 2 integrates with existing monitoring systems.

Lightweight and Discreet:

Libris 2 pendant can be worn on a belt or on a lanyard under clothes for easy and hidden accessibility.

Rugged Casing:

Advanced durability for shatter resistance up to two meters and water submersion up to one meter for 30 minutes. (IK06 and IP67 ratings)

Hands-Free Voice Calls:

The device automatically calls the center when a fall is detected – no need to push a button to receive help.
